

- 
- The diagram shows a floor plan with a central large room and several smaller rooms along the perimeter. A legend in the center identifies three paths for T1: Offline Positioning (red), PDR Positioning (blue), and Ground Truth (green). The paths start in the top-left corner, move down, then right, and end in the bottom-right area. The PDR path (blue) shows significant deviation from the ground truth (green) and offline positioning (red) in the lower right section of the map.
- Offline Positioning for T_1
 - PDR Positioning for T_1
 - T_1 Ground Truth
